

RF

Fusion with Metal Detection

Merging Design with Quality and Security

Fusion merges design and quality into one attractive package. A perfect fit for every fashion retailer who doesn't want to compromise on either design or security. Attractive design with plexiglass frames, perfect for wide entrances.

The Antenna has an integrated Metal Detection function (MDG) which triggers a silent alarm when a foil-lined bag designed for shoplifting is detected. The silent alarm can either trigger a signal to a pager or flash a strobe light. It's discreetly built-in within the Antenna.

Antenna Features

- Transparent acrylic antenna frame
- Scratch resistant metal covers

Antenna Specifications

- Width 345 mm
- Height 1600 mm
- Thickness 20 mm
- Thickness at base 140 mm
- Weight 18.1 kg

Add-ons

- Remote service v3
- Etched logo
- Prisma
- Protection buffers

Approvals

- CE, FCC, ETL, CB

Power Consumption

- 2 Antennas 30W
- 3 Antennas 36W
- Power Supply AC/DC
- Input 100-240VAC, 50/60Hz
- Output 24Vdc

Working Frequency

- RF Center Frequency 8.2MHz
- RF Frequency band of operation 7.7-8.7MHz
- MDG Frequency 78.1kHz

Alarm

- Audio level (adjustable) 95dBA

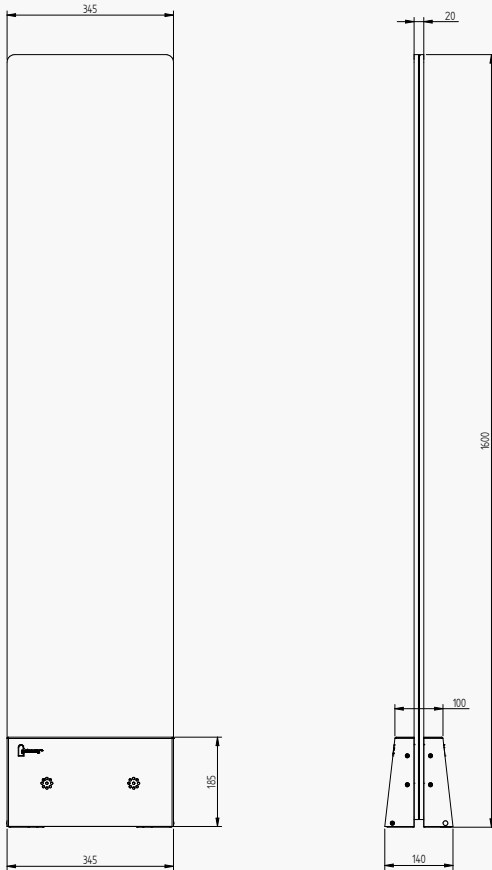

Environmental

- Ambient Temperature 0°C to 50°C
(32°F to > 122°F)
- Relative Humidity 0 to 90%
Non-condensing

Dimensions

Antenna

All dimensions in mm.

AUTHORIZED DEALER

Gunnebo Gateway AB is a Swedish supplier of anti-theft systems for the retail sector worldwide. We are the only company to develop, manufacture and market solutions built on every existing form of Electronic Article Surveillance (EAS) technology.
