

Store Protect

Premium XL MDG

AM Technology

Store Protect Premium XL MDG combines design and functionality. Both highly aesthetic and highly functional its slim and discrete design provides an excellent choice for any retail store.

The metal framed Premium standard colors are high gloss black or grey/silver. Although, it can be custom ordered in any color to compliment the ambience of your store.

Its superb detection range combined with high tech integrations such as metal detection makes it a top choice on the EAS market.

The metal detection function (MDG) is built in and silently alarms when metal foiled bags used during shoplifting pass through the systems.

ADD-ONS

Ad-holders can be mounted to each side of the antenna for more focused advertising

With Gateway's Remote Service add-on, issues can be quickly resolved from a distance without store interference.

AM

Specifications

Measurements
